INSTRUCTIONS FOR FILING THE ANNUAL REPORT TO THE PUBLIC SERVICE COMMISSION OF WEST VIRGINIA

GENERAL INFORMATION

I. Purpose

This form is designed to collect financial and operational information from natural gas companies subject to the jurisdiction of the Public Service Commission of West Virginia. This report is a nonconfidential public use form.

II. Who Must Submit

Each natural gas company having operating revenues in excess of \$1,000,000 must submit this form.

III. What and Where to Submit

(a) Submit an original of this form to:

Public Service Commission of West Virginia Utilities Division P.O. Box 812 Charleston, West Virginia 25323

Retain one copy of this report for your files.

(b) Submit immediately upon publication, a copy of the latest annual report to stockholders and any *annual* financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. (Do not include monthly and quarterly reports. Indicate by checking the appropriate box on page 5, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared.) Mail these reports to:

Public Service Commission of West Virginia Utilities Division P.O. Box 812 Charleston, West Virginia 25323

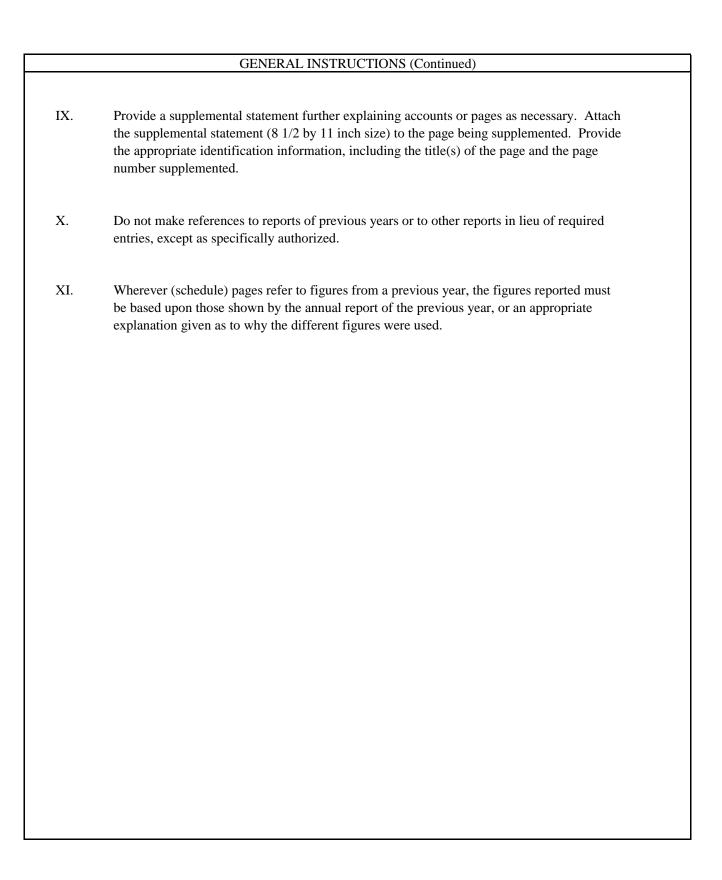

IV. When to submit

Submit this report form 90 (ninety) days or less after the period covered by this report.

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts as prescribed by the Public Service Commission of West Virginia. Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars, Dth or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important). The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use the current year amounts for statement of income accounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, enter the words "Not Applicable" on the particular page(s).
- V. Complete this report by means which result in a permanent record. Complete the original in permanent black ink or typewriter print, if practical.
- VI. Enter the month, day, and year for all dates. Use customary abbreviations.
- VII. Indicate negative amounts (such as decreases) by enclosing the figures in parentheses ().
- VIII. When making revisions, resubmit only those pages that have been changed from the original submission. Submit only one copy as required for filing the form. Mail dated resubmissions to:

Public Service Commission of West Virginia Utilities Division P.O. Box 812 Charleston, West Virginia 25323

GENERAL INFORMATION

1. Name and title of officer having custody of the general books of account and address of the office where such books are kept.

Preston Poljak

Sr. Vice President, CFO

375 North Shore Drive, Suite 600, Pittsburgh, Pennsylvania 15212

2. Name of State under the laws of which respondent is incorporated and the date of incorporation. If incorporated under a special law, give reference to such law. If not incorporated, state that fact and give the type of organization and date organized.

The respondent is a limited liability company formed in the state of West Virginia July 16, 2013 in ancitipation of the sale of Equitable Gas Company LLC from EQT Corporation to PNG Companies LLC. The actual sale date was December 17, 2013. Prior to that date, the respondent was an operating division within Equitable Gas Company LLC.

- 3. If at any time during the year the property of respondent was held by a receiver or trustee, give (a) name of receiver or trustee
 - (b) date such receiver or trustee took possession, (c) the authority by which the receivership or trusteeship was created,
- (d) date when possession by receiver or trustee ceased.

None.

State the classes of utility and other services furnished by respondent during the year in each state in which the respondent operated.

The respondent operates as a local distribution company in West Virginia.

- 5. Have you engaged as the principal accountant to audit your financial statements an accountant who is not the principal accountant for your previous year's certified financial statements?
 - (1) __Yes...Enter the date when such independent accountant was initially engaged:
 - (2) <u>X</u>No

102. CONTROL OVER RESPONDENT

- 1.)Report in column (a) the names of all corporations, partnerships, business trusts, or similar organizations that directly or indirectly held control over the respondent at the end of the year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, report in a footnote the chain of organization.
- 2.) If control was held by a trustee(s), state in a footnote the name of trustee(s), the name of beneficiary or beneficiaries for whom the trust was maintained, and the purpose of the trust.
- 3.) In column (b) designate type of control over the respondent. Report an "M" if the company is the main parent or controlling company having ultimate control over the respondent. Otherwise, report a "D" for direct, an "I" for indirect, or a "J" for joint control.

Line No.	Company Name (a)	Type of Control (b)	State of Incorporation (c)	Voting % of Stock (d)

106 SECURITY HOLDER INFORMATION AND VOTING POWERS
1. Report the requested information for each holder of one percent or more of the voting securities or if there are fewer than ten such holders, the ten who hold the highest voting powers. Data should be the latest
available nearest the end of the year. When the holder of record is a trustee, or other intermediate agency (except a corporation), the data should be reported opposite the names of the beneficial owners,
designated as such, under a general heading identifying the trustee or other agency. Securities with contingent voting rights may be disregarded.
2. Attach hereto a certified copy of every effective voting trust established and a certified copy of every other agreement (trustee or otherwise) under which voting securities are held for beneficial owners. If any
such agreement has been filed with a previous report, reference to the earlier report will be sufficient provided changes or modification since filing are shown.

IMPORTANT CHANGES DURING YEAR

Give particulars (Details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none" or "not applicable" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state the fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lese and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
- 6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimated increase or decrease in annual revenues due to important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instructions 1 to 11 above, such notes may be attached to this page.

Items 1, 2, 3, 4, 5, 6 & 7: None

Item 8:

A three-year contract was ratified with the Utility Workers Union of America through October 31, 2018. A 4.5% wage increase was effective November 1, 2017, resulting in an estimated annualized increase of \$55,500 in operating expenses.

Non-union employees received an average increase of approximately 3% effective February 25, 2017.

Items 9 & 10: None

Item 11:

Effective November 1, 2017, Case No. 17-1075-G-30C, The West Virginia Public Service Commission approved an increase in the gas cost recovery rates. As a result of these changes, the net impact on revenues for 2017 was an increase of approximately \$99K. The number of sales customers as of December 31, 2017 was 12,939.

Peoples Gas WV LLC This Report is an Original Date of Report: April 30, 2018 Year of Report: December 31, 2017

STATEMENT OF RETAINED EARNINGS FOR THE YEAR

- 1. Report All changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
- 2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433 436-439 inclusive). Show the contra primary account affected in column (b).
- 3. State the purpose and amount for each reservation and appropriation of retained earnings.
- 4. List first Account 439, Adjustments to retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
- 5. Show dividends for each class and series of capital stock.
- 6. Show separately the State and Federal income tax effect of items shown in Account 439, Adjustments to Retained Earnings.
- 7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
- 8. At lines 3, 4, 7, 9, 11, and 15, add rows as necessary to report all data. When rows are added, the additional row numbers should follow in sequence, e.g. 3.01, 3.02, etc.

NOTES TO FINANCIAL STATEMENTS

- 1. Provide important disclosures regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the Year, and Statement of Cash Flows, or any account thereof. Classify the disclosures according to each financial statement, providing a subheading for each statement except where a disclosure is applicable to more than one statement. The disclosures must be on the same subject matters and in the same level of detail that would be required if the respondent issued general purpose financial statement to the public or shareholders.
- 2. Furnish details as to any significant contingent assets or liabilities existing at year end, and briefly explain any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Also, briefly explain any dividends in arrears on cumulative preferred stock.
- 3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
- 4. Furnish details on the respondent's pension plans, post-retirement benefits other than pensions (PBOP) plans, and post-employment benefit plans as required by instruction No. 1 and, in addition, disclose for each individual plan the current year's cash contributions. Furnish details on the accounting for the plans and any changes in the method of accounting for them. Include details on the accounting for transition obligations or assets, gains or losses, the amounts deferred and the expected recovery periods. Also, disclose any current year's plan or trust curtailments, terminations, transfers, or reversions of assets.
- 5. Where Account 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
- 6. Explain concisely any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 7. Disclose details on any significant financial changes during the reporting year to the respondent or the respondent's consolidated group that directly affect the respondent's gas pipeline operations, including: sales, transfers or mergers of affiliates, investments in new partnerships, sales of gas pipeline facilities or the sale of ownership interests in the gas pipeline to limited partnerships, investments in related industries (i.e., production, gathering), major pipeline investments, acquisitions by the parent corporation(s), and distributions of capital.
- 8. Explain concisely unsettled rate proceedings where a contingency exists such that the company may need to refund a material amount to the utility's customers or that the utility may receive a material refund with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects and explain the major factors that affect the rights of the utility to retain such revenues or to recover amounts paid with respect to power and gas purchases.
- 9. Explain concisely significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and summarize the adjustments made to balance sheet, income, and expense accounts.
- 10. Explain concisely only those significant changes in accounting methods made during the year which had an effect on net income including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

1. NATURE OF OPERATIONS

Peoples Gas WV LLC (the Respondent) Peoples Gas WV LLC (the Respondent), a West Virginia limited liability company, is a wholly owned, direct subsidiary of PNG Companies LLC ("PNG Co"), which is indirectly owned by SteelRiver Infrastructure Fund North America LP (SRIFNA) and an affiliated fund. The Respondent is primarily a natural gas distribution utility operating in West Virginia and engages in the purchase, storage, distribution and transportation of natural gas.

2. SIGNIFICANT ACCOUNTING POLICIES

General—The respondent makes certain estimates and assumptions in preparing the financial statements that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the periods presented. Actual results may differ from those estimates.

Accounting for Regulated Operations—The Respondent's distribution rates, terms of service and contracts with affiliates are subject to comprehensive regulation by the WV Public Service Commission (WV PSC). The accounting for regulated gas operations differs from the accounting for nonregulated operations in that the Respondent is required to reflect the effect of rate regulation in the Respondent is required to reflect the effect of rate regulation in the financial statements. For regulated businesses subject to federal or state cost-of-service rate regulation, regulatory practices that assign costs to accounting periods may differ from accounting methods generally applied by nonregulated companies. When it is probable that regulators will permit the recovery of current costs through future rates charged to customers, the respondent defers these costs as regulatory assets that otherwise would be expensed by nonregulated companies. When it is probable that regulators will require customer refunds through future rates or when revenue is collected from customers for expenditures that are not yet incurred. Regulatory assets are amortized into expense and regulatory liabilities are amortized into income over the period authorized by the regulator.

The Respondent evaluates whether or not recovery of its regulatory assets through future regulated rates is probable and makes various assumptions in its analyses. The expectations of future recovery are generally based on orders issued by regulatory commissions or historical experience, as well as discussions with applicable regulatory authorities. If recovery of a regulatory asset is determined to be less than probable, it will be written off and an expense will be recorded in the period such assessment is made.

Operating Revenue—Operating revenue is recorded on the basis of services rendered, commodities delivered, or contracts settled, and includes amounts yet to be billed to customers. The Respondent's receivables from customers, of accrued unbilled revenue, based on estimated amounts of natural gas delivered, but not yet billed, to its utility customers. The Respondent estimates utility unbilled revenue based on historical usage, applicable customer rates, and weather factors.

Unrecovered Gas Costs—The differences between actual purchased gas expenses and the levels of recovery for these expenses in current rates are deferred and matched against recoveries in future periods. The deferral of costs in excess of current-period recovery is recognized as a regulatory asset and classified as unrecovered gas costs, while the recovery of revenue in excess of current period expenses is recognized as a regulatory liability and classified as amounts payable to customers.

Income Taxes—The Company is a single-member limited liability company treated as a disregarded entity for United States federal and Pennsylvania state income tax purposes. The Company's taxable income or loss is included in the federal and state tax returns filed by LDC Funding LLC, the parent company of LDC Holdings, LLC. The Company calculates its share of the federal and state tax expense and benefits of LDC Funding LLC based on the amounts that would be reported if it were to file tax returns on a separate-company basis.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, *Income Taxes*, requires an asset and liability approach to accounting for income taxes. Deferred income tax assets and liabilities are provided, representing future effects on income taxes for temporary differences between the basis of assets and liabilities for financial reporting and tax purposes. Where permitted by regulatory authorities, the treatment of temporary differences may differ from the requirements of ASC 740. For those temporary differences, a regulatory asset is recognized if it is probable that future revenues will be provided for the payment of deferred tax liabilities; as a result, only a provision for the current tax expense is included in the determination of net income. The Company has not identified any uncertain tax positions as of December 31, 2017.

We establish a valuation allowance when it is more likely than not that all, or a portion, of a deferred tax asset will not be realized. As of December 31, 2017 and 2016, no valuation allowances were considered necessary. Judgment and the use of estimates are required in developing the provision for income taxes and reporting of tax-related assets and liabilities. The interpretation of tax laws involves uncertainty, since tax authorities may interpret the laws differently. Ultimate resolution of income tax matters may result in favorable or unfavorable impacts to net income and cash flows, and adjustments to tax-related assets and liabilities could be material.

Cash and Cash Equivalents—Current banking arrangements generally do not require checks to be funded until actually presented for payment. At December 31, 2017 accounts payable included \$54,722 of checks outstanding but not yet presented for payment. For purposes of the Respondent's consolidated statements of cash flows, it considers cash and cash equivalents to include cash on hand, cash in banks, and temporary investments purchased with an original maturity of three months or less.

Allowance for Doubtful Accounts—Accounts receivable are presented on the balance sheet net of estimated uncollectible amounts. The balance within the allowance for doubtful accounts represents estimated uncollectible amounts pertaining to active customer accounts in an amount approximating anticipated losses. Individual accounts are written off against the allowance when the individual account balances are determined to be uncollectible.

Inventories—Materials and supplies inventories are valued using the weighted-average cost method. The Company has stored gas inventory under the weighted-average cost method, which is valued at \$1,018,836 at December 31, 2017.

Debt Issuance Costs—In accordance with ASC 310, *Receivables*, debt issuance costs are being amortized into interest expense over the term of the debt.

Asset Retirement Obligations—The Respondent recognizes AROs at fair value, as incurred, or when sufficient information becomes available to determine a reasonable estimate of the fair value of the retirement activities to be performed. These amounts are capitalized as costs of the related tangible long-lived assets. Since relevant market information is not available, the Respondent estimates fair value using discounted cash flow analyses. The Respondent reports the accretion of the AROs due to the passage of time and the depreciation of the asset retirement costs as a regulatory asset.

3. TAX LAW CHANGE

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "TCJA"). The TCJA makes broad and complex changes to the U.S. tax code, including, but not limited to, (1) reducing the U.S. federal corporate tax rate from 35 percent to 21 percent; (2) eliminating the corporate alternative minimum tax ("AMT") and changing how existing AMT credits can be realized; (3) providing for full expensing of property acquired after September 27, 2017; (4) creating a new limitation on deductible interest expense; and (5) changing rules related to uses and limitations of net operating loss carryforwards created in tax years beginning after December 31, 2017.

Further, the TCJA includes changes only affecting the taxation of regulated public utilities. These changes include generally allowing for the continued deductibility of interest expense, not allowing the full expensing of certain property acquired after September 27, 2017, and continuing certain rate normalization requirements for accelerated depreciation benefits. The Company is currently working with its state regulatory commission who has opened investigations to examine the impact of the TCJA on customer rates. The Company will continue to evaluate the impacts of the TCJA, which may vary depending on the ultimate outcome of the various regulatory proceedings.

Substantially all of the provisions of the TCJA are effective for taxable years beginning after December 31, 2017.

In accordance with the accounting rules for income taxes, the tax effects of changes in tax laws were recognized in 2017, the period in which the law was enacted, and deferred tax assets and liabilities were re-measured at the enacted tax rate expected to apply when temporary differences are to be realized or settled.

Reasonable provisional estimates were recognized related to the TCJA as of December 31, 2017. Additional re-measurement may occur based on final analysis, computations, technical corrections, or other forms of guidance issued from regulatory agencies or commissions. While the Company believes the impacts of the Act were appropriately accounted for in accordance with the applicable authoritative guidance, the ultimate outcome may be different from the provisional estimates recorded, and those differences may materially impact its future statement of financial position, results of operations, and cash flows.

4. EMPLOYEE BENEFIT PLANS

The following tables summarize the changes in the Respondent's defined benefit and other postretirement benefit plan obligations and plan assets, fair value measurements, components of net periodic benefit costs, and expected payments of future service:

Period Ended December 31, 2017	Pension	OPEB
Change in benefit obligation:		
Benefit obligation—beginning of year	\$ 2,029,907	\$ 753,568
Service cost		13,786
Interest cost	104.807	35,782
Benefits paid	(294,268)	(161,414)

GAS PLANT IN SERVICE (Accounts 101, 102, 103, and 106)

- 1. Report below the original cost of gas plant in service according to the prescribed accounts.
- 2. In addition to the Account 101, Gas Plant in Service (Classified), this page and the next include Account 102, Gas Plant Purchased or Sold, Account 103, Experimental Gas Plan Unclassified, and Account 106, Completed Construction not Classified-Gas.
- 3. Include in column (c) and (d), as appropriate corrections of additions and retirements for the current or preceding year.
- 4. Enclose in parenthesis credit adjustments of plant accounts to indicate the negative effect of such accounts.
- 5. Classify Account 106 according to prescribed accounts on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise if the respondent ahs a significant amount of plant retirements which have not been classified to primary accounts at the end of the year., include in column (d) a tentative distribution of such retirements on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior year's unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d) including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Account 101 and 106 will avoid serious omissions of respondent's reported amount for plant actually in service at end of year.

GAS PLANT IN SERVICE (Accounts 101, 102, 103, and 106) (Continued)

- 6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits to primary account classifications.
- 7. For Account 399, state the nature of use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.
- 8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give date of such filing.

CONSTRUCTION OVERHEADS - GAS

- 1. List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
- 2. On page 218 furnish information concerning construction overheads.
- 3. A respondent should not report "no" to this page if no overhead apportionments are made, but rather should explain on page 218 the accounting procedures employed and the amounts of engineering, supervision and administrative costs, etc., which are directly charged to construction.
- 4. Enter on this page engineering, supervision, administrative and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

ю а	branker work order and then prorated to construction jobs.

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

- 1. For each construction overhead explain: (a) the nature and extent of work, etc, the overhead charges are intended to cover, (b) the general procedures for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.
- 2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the U.S. of A.
- 3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

COMPUTATION OF ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

For line 1(5), column (d) below, enter the rate granted in the last rate proceeding, If such is not available, use the average rate earned during the preceding three years.

1. Components of Formula (Derived from actual book balances and actual cost rates):

	Title		Amount	Capitalization Ratio		Cost Rate
Line				(Percent)		Percentage
No.	(a)		(b)	(c)		(d)
(1)	Average Short-term Debt	S	108,107,000			
(2)	Short-term Interest				S	2.625%
(3)	Long-Term Debt	D	825,000,000		d	4.247%
(4)	Preferred Stock	P	-		p	
(5)	Common Equity	C	847,550,000		c	11.30%
(6)	Total Capitalization		1,780,657,000	0.00%		
(7)	Average Construction Work in Progress Balance	W	26,380,000			
2. 0	Gross Rate for Borrowed Funds		s [S/W]+d[D/(D+	-P+C)][1-(S/W)]		2.63%
3. F	tate for Other Funds		[1-(S/W)] {p[P/(D+P+	-(C)] + c[C/(D+P+C)]		0.00%

4. Weighted Average Rate Actually Used for the Year:

a. Rate for Borrowed Funds

b. Rate for Other Funds

2.63% 0.00%

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)

- 1. Explain in a footnote any important adjustments during year.
- 2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that report for gas plant in service, pages 204-209, column (d), excluding retirements of non-depreciable property.
- 3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
- 4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

GAS STORED (ACCOUNT 117, 164.1, 164.2 AND 164.3)

- 1. If during the year adjustment was made to the stored gas inventory (such as to correct cumulative inaccuracies of gas measurements), furnish in a footnote an explanation of the reason for the adjustment, the Mcf and dollar amount of adjustment, and account charged or credited.
- 2. Give in a footnote a concise statement of the facts and the accounting performed with respect to any encroachment of withdrawals during the year, or restoration of previous encroachment, upon native gas constituting the "gas cushion" of any storage reservoir.
- 3. If the company uses a "base stock" in connection with its inventory accounting, give a concise statement of the basis of establishing such "base stock" and the inventory basis and the accounting performed with respect to any encroachment of withdrawals upon "base stock", or restoration of previous encroachment, including brief particulars of any such accounting during the year.
- 4. Report pressure base of gas volumes at 14.73 psia at 60 F

LONG-TERM DEBT (Accounts 221, 222, 223, and 224 continued)

- 5. In a supplemental statement, give explanatory details for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers
- 6. If the respondent has pledged any of its long-term debt securities, give particulars (details) in a footnote, including name of the pledge and purpose of the pledge.
- 7. If the respondent has any long-term securities that have been nominally issued and are nominally outstanding at end of year, describe such securities in a
- 8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (f). Explain in a footnote any difference between the total of column (f) and the total Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

 9. Give details concerning any long-term debt authorized by a regulatory commission but not yet issued.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

- 1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal Income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
- 2. The utility is a member of a group which files consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

- 1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.
- 2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes). Enter the amounts in both columns (d) and (e). The balancing of this page is not affected by the inclusion of these taxes.
- 3. Include in column (d) taxes charged during the year taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.
- 4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

GAS OPERATING REVENUES - INSTRUCTIONS

- 1. Report on pages 300 301a natural gas operating revenues for each prescribed account total and manufactured gas revenues in total. The amounts must be consistent with the detailed data on succeeding pages.
- 2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
- 3. Commercial and Industrial Sales, Account 481, may be classified according to the basis of classification (Small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 200,000 Mcf per year or approximately 800 Mcf per day of normal requirements. (See Account 481 of the Uniform System of Accounts.) Explain basis of classification in a footnote.
- 4. Revenues in columns (b) and (c) include transition costs from upstream pipelines.
- 5. Other Revenues in columns (f) and (g) include reservation charges received by the pipeline plus usage charges, less revenues reflected in columns (b) through (e). Include in columns (f) and (g) revenues for Accounts 480 495.
- 6. If increases or decreases from previous year (columns (c), (e), (g), (i), (k) and (m)) are not derived from previously reported figures, explain any inconsistencies in a foot note.
- 7. On Page 108, include information on major changes during the year, new service, and important rate increases or decreases.
- 8. Report the revenue from transportation services that are bundled with storage service as transportation service revenue.
- 9. Report quantities of natural gas sold in Mcf (Mcf at 14.73 psia at 60 F), the conversion factor (Mcf to Dth), and the quantity in Dth.
- 10. Report number of customers, columns (I) and (m), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.

INTERRUPTIBLE, OFF PEAK, AND FIRM SALES TO DISTRIBUTION SYSTEM INDUSTRIAL CUSTOMERS

- 1. Report below the average number of interruptible, off peak, and firm industrial customers on local distribution systems of the respondent, and the volume of gas sales to these customers for the year.
- 2. Interruptible customers are those to whom service may be interrupted under terms of the customer's gas contract, or to whom service is required to be interrupted, regardless of contractual arrangements in emergency periods, by law, ordinance, directive, or other requirement of government authority. State in a footnote the basis on which interruptible customers are reported.
- 3. Off peak sales are seasonal and other sales which do not occur during wintertime demands.

GAS OPERATION AND MAINTENANCE EXPENSES

- 1. Report operation and maintenance expenses. If the amount for previous year is not derived from previously reported figures, explain in footnotes.
- 2. Provide in footnotes the source of the index used to determine the price for gas supplied by shippers as reflected on line 74.

NUMBER OF GAS DEPARTMENT EMPLOYEES

- 1. The data on number of employees should be reported for the payroll period nearest to October 31, or any payroll period ending 60 days before or after October 31.
- 2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote.
- 3. The number of employees assignable to the gas department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the gas department from joint functions.

Payroll Period Ended (Date)	12/31/2017

GAS PURCHASES (Accounts 800, 801, 802, 803, 804 & 805)

- 1. Provide totals for the following accounts:
 - 800 Natural Gas Well Head Purchases
 - 800.1 Natural Gas Well Head Purchases, Intracompany Transfers
 - 801 Natural Gas Field Line Purchases
 - 802 Natural Gas Gasoline Plant Outlet Purchases
 - 803 Natural Gas Transmission Line Purchases
 - 804 Natural Gas City Gate Purchases
 - 804.1 Liquefied Natural Gas Purchases
 - 805 Other Gas Purchases
 - 805.1 Purchase Gas Cost Adjustments

The totals shown in columns (b) and (c) should agree with the books of account. Reconcile any differences in a footnote.

- 2. State in column (b) the volume of purchased gas as finally measured for the purpose of determining the amount payable for the gas. Include current year receipts of makeup gas that was paid for in prior years.
- 3. State in column (c) the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in column (b).
- 4. State in column (d) the average cost per Mcf to the nearest hundredth of a cent. (Average means column (c) divided by column (b) multiplied by 100.)

EXCHANGE AND IMBALANCE TRANSACTIONS

1.Report below details by zone and rate schedule concerning the gas quantities and related dollar amount of imbalances associated with system balancing and no-notice service. Also, report certificated natural gas transactions during the year. Provide subtotals for imbalance and no-notice quantities for exchanges. If respondent does not have separate zones, provide totals by rate schedule. Minor exchange transactions (less than 100,000 Dth) may be grouped.

TRANSMISSION AND COMPRESSION OF GAS BY OTHERS (Account 858)

 Report below particulars (details) concerning gas transported or compressed for respondent by others equaling more than 1,000,000 Mcf (Bcf) and amounts of payments for such services during the year.

Minor items (less than 1,000,000 Mcf) must be grouped.

In column (a) give name of companies to which payments were made, points of delivery and receipt of gas, names of

TRANSMISSION AND COMPRESSION OF GAS BY OTHERS (Account 858)

- Points of delivery and receipt should be so designated that they can be identified readily on map of respondent's pipeline system.
- 4. If the MMBTU of gas received differs from the MMBTU delivered, explain in a footnote the reason

for difference, I.e., uncompleted deliveries, allowances for transmission loss, etc.

OTHER GAS SUPPLY EXPENSES (Account 813)

1. Report other gas supply expenses by descriptive titles that clearly indicate the nature of such expenses. Show maintenance expenses, revaluation of monthly encroachments recorded in Account 117.4, and losses on settlements of imbalances and gas losses not associated with storage separately. Indicate the functional classification and purpose of property to which any expenses relate. List separately items of \$250,000 or more.

DEPRECIATION, DEPLETION, AND AMORTIZATION OF GAS PLANT (Accounts 403,404.1, 404.2, 404.3, 405) (Except Amortization of Acquisition Adjustments)

- 1. Report in Section A the amounts of depreciation expense, depletion and amortization for the accounts indicated and classified according to the plant functional groups shown.
- 2. Report all available information called for in Section B for the report year 1971, 1974 and every fifth year thereafter. Report only annual changes in the intervals between the report years (1971, 1974 and every fifth year thereafter). Report in column (b) all depreciable plant balances to which rates are applied and show a composite total. (If more desirable, report by plant account, subaccount or functional classifications other than those pre-printed in column (a). Indicate at the bottom of Section B the manner in

(Except Amortization of Acquisition Adjustments) (Continued)

which column (b) balances are obtained. If average balances, state the method of averaging used. For column (c) report available information for each plant functional classification listed in column (a). If composite depreciation accounting is used, report available information called for in columns (b) and (c) on this basis. Where the unit-of-production method is used to determine depreciation charges, show at the bottom of Section B any revisions made to estimated gas reserves.

3. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates state at the bottom of Section B the amounts and nature of the provisions and the plant items to which related.

NOTES to Depreciation, Depletion and Amortization of Gas Plant

The respondent uses a straight-line method of depreciation by individual plant account. Depreciation is calculated monthly by applying the appropriate rate to the current month-end balance in each account. The rates applied were as follows:

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts. Provide a subheading for each account and a total for the account. Additional columns may be added if deemed appropriate with respect to any account.

- (a) Miscellaneous Amortization (Account 425) Describe the nature of items included in this account, the contra account charged, the total of amortizations charges for the year, and the period of amortization.
- (b) Miscellaneous Income Deductions Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities; and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than \$10,000 may be grouped by classes within the above accounts.
- (c) Interest on Debt to Associated Companies (Account 430) For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was

(d) Other Interest Expense (Account 431) — Report particulars (details) including the amount and interest rate for other interest

charges incurred during the year.

REGULATORY COMMISSION EXPENSES (Account 928)

- 1. Report below details of regulatory commission expenses incurred during the current year (or in previous years, if being amortized) relating to formal cases before a regulatory body, or cases in which such a body was a party.
- 2. In column (b) and (c), indicate whether the expenses were assessed by a regulatory body or were otherwise incurred by the utility.

3. Show in column (k) any expenses incurred in prior years that are being amortized. List in column (a) the period of amortization.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to *Utility Departments, Construction, Plant Removals, and Other Accounts,* and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used. When reporting detail of other accounts, enter as many rows as necessary numbered sequentially starting with 74.01, 74.02, etc.

CHARGES FOR OUTSIDE PROFESSIONAL AND OTHER CONSULTATIVE SERVICES

- 1. Report the information specified below for all charges made during the year included in any account (including plant accounts) for outside consultative and other professional services. (These services include rate, management, construction, engineering, research, financial, valuation. legal, accounting, purchasing, advertising, labor relations, and public relations, rendered the respondent under written or oral arrangement, for which aggregate payments were made during the year to any corporation, partnership, organization of any kind, or individual (other than for services as an employee or for payments made for medical and related services) amounting to more than \$25,000, including payments for legislative services, except those which should be reported in Account 426.4 Expenditures for Certain Civic, Political and Related Activities.
 - (a) Name and address of person or organization rendering services,
 - (b) description of services received during year and project or case to which services relate,
 - (c) basis of charges, and
 - (d) total charges for the year, detailing utility department and account charged.
- 2. For any services which are of a continuing nature, give the date and term of contract and date of Commission authorization, if contract received Commission approval.
- 3. Designate with an asterisk associated companies.

NATURAL GAS PRODUCTION AND GATHERING STATISTICS

- 1. The items of plant costs and expenses, lines 1 to 25, represent combinations of accounts prescribed in the Uniform System of Accounts.
- 2. Plant costs, line 2 to 13 of column (b), should agree with the Gas Production and Gathering Plant entry reported on page 204, Gas Plant in Service.
- 3. Expenses, lines 15 to 26 in column (b) should agree with the total Gas Production and Gathering expenses reported on page 320.
- 4. In column (c) show costs and expenses relating to leases acquired on or before October 7, 1969.
- 5. In column (d) show costs and expenses relating to leases acquired on or after October 8, 1969.
- 6. In column (e) show cost and expense relating to the gathering system.

GAS AND OIL WELLS

- 1. Report below the particulars (details) concerning gas and oil wells of the respondent which are either producing or capable of production.
- 2. Report the required information alphabetically by states. List wells located offshore separately.
- 3. For column (a), under separate headings, list gas wells first, oil wells second, and combination wells third. Combination wells are wells producing or capable of production from one or more oil reservoirs and also from one or more gas reservoirs. Enter total for each of the headings (gas wells, oil wells, combination wells). Designate any wells not operated during the past year, and in a footnote state whether the book cost of such wells, or any portion hereof, has been retired in the books of account, or what disposition of the wells and their book cost is contemplated.
- 4. In column (f), report wells reclassified during the year as oil wells, gas wells, or combination wells. Show additions in black and deductions enclosed in parentheses. The total additions equal the total deductions.

FIELD AND STORAGE LINES

- 1. Report below the total miles of pipe composing gathering systems and those of underground gas storage projects operated by the respondent during the year.
- 2. Provide separate subheadings and totals for gathering system field lines and underground storage lines.
- 3. Report information on gathering system field lines by State.
- 4. If any field lines or storage lines were not operated during the past year, provide particulars (details) of such lines in a footnote. State whether the book cost of such lines or any portion thereof, has been retired in the books of account, or what disposition of the lines and their book cost is contemplated.

5. Report miles of pipe to the nearest tenth of a mile.

GAS STORAGE PROJECTS

- 1. Report particulars (details) for total gas storage projects.
- 2. Total storage plant (column b) should agree with amounts reported by the respondent in Acct's 350.1 to 364.8 inclusive (pages 206 207).
- 3. Give particulars (details) of any gas stored for the benefit of another company under a gas exchange arrangement or on basis of purchase and resale to other company. Designate with an asterisk if other company is an associated company.

GAS ACCOUNT - NATURAL GAS

- 1. The purpose of this page is to account for the quantity of natural gas received and delivered by the respondent, taking into consideration differences in pressure bases used in measuring natural gas received and delivered.
- 2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
- 3. Enter in columns (c) (e) the volume as reported in the schedules indicated for the items of receipts and deliveries.
- 4. In a footnote report the volumes of gas from respondent's own production delivered to respondent's transmission system and included in natural gas sale.
- 5. If the respondent operates two or more systems which are not interconnected, submit separate pages for this purpose. Use copies of pages 520 and 521.
- 6. Also indicate by footnote the volumes of gas not subject to Commission regulation which did not incur FERC regulatory costs by showing (1) the local distribution volumes delivered to the local distribution company portion of the reporting pipeline by another jurisdictional pipeline, (2) the volumes which the reporting pipeline transported or sold through its local distribution or intrastate facilities, and which the reporting pipeline received through gathering facilities, distribution facilities or intrastate facilities, but not through any of the interstate portion of the reporting pipeline, and (3) the gathering line volumes which were not destined for interstate market or which were not transported through any interstate portion of the reporting pipeline.
- 7. Also indicate by footnote (1) the system supply volumes of gas which are stored by the reporting pipeline during the reporting year and also reported as sales, transportation and compression volumes by the reporting pipeline during the same reporting year, (2) the system supply volumes of gas which are stored by the reporting pipeline during the reporting pipeline during the reporting year and which the reporting pipeline intends to sell or transport in a future reporting year, and (3) contract storage volumes.
- 8. Also indicate the volumes of pipeline production field sales which are included in both the company's total sales figure and the company's total transportation figure (lines 42 and 46 of page 521).

SYSTEM MAPS

- 1. Furnish 5 copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
- 2. Indicate the following information on the maps:
 - (a) Transmission lines colored in read, if they are not otherwise clearly indicated.
 - (b) Principal pipeline arteries of gathering systems.
 - (c) Sizes of pipe in principal pipelines shown on the map.
 - (d) Normal directions of gas flow--indicated by arrows.
 - (e) Location of natural gas fields or pools in which the respondent produces or purchases natural gas.
 - (f) Locations of compressor stations, products extraction plants, stabilization plants, important purification plants, underground storage areas, recycling areas, etc.
 - (g) Important main line interconnections with other natural gas companies, indicating in each case whether gas is received or delivered and name of connecting company.
 - (h) Principal communities in which respondent renders local distribution service.
- 3. In addition, show on each map: graphic scale to which map is drawn; date as of which the map represents the facts it purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.
- 4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger than this report. Bind the maps to the report.

Printout of	of map has been included	d at the end of the report	t.
